1.0 Scope: Laboratory

2.0 Distribution list: Laboratory

- The hospital determines the tests that need to be outsourced which are not done in the facility.

The lab should fulfill the following criteria:

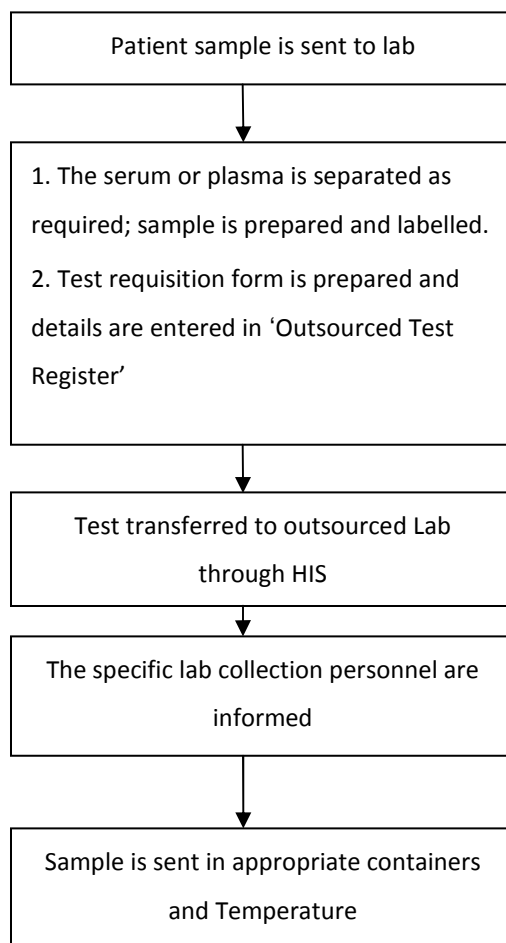

- Should have accreditation by a recognized body like NABL, NABH etc
- Should maintain confidentiality of patient records.
- Should have a low turnaround time.
- An MOU is signed between the hospital and the outsourced organisation.

Reference: MOU Copy , ann.5 (list of outsourced tests with TAT) in Laboratory Manual.
